

Madison Wood Preservers

Madison's expertise in treated wood products dates back more than half a century. Whether you want high-grade material for applications where appearance is important or you want economical wood, you can be sure it will be properly preserved at Madison.

Treated Lumber

Madison Wood carries a full line of treated dimensional lumber for residential, commercial, and agricultural applications. We only source from select, top-quality mills, and we insist that all pretreated wood arrives tarped and protected from the elements. Our lumber is stored inside of our 180,000 square foot warehouse to ensure freshness and a bright, consistent color. Remember MadWood when it's time to start your next project!

**Business is built on quality treated
lumber and fencing products

*Long-Lasting Options for Agricultural,
Industrial, and Residential Fences*

Quality Product

Whether you want a traditional barbed wire fence with round wood posts, a split rail fence, or a unique variation, consider the options produced by Madison Wood Preservers. Madison offers Southern Yellow Pine fence posts in several styles, 7' – 25' in length and 3" – 8" in diameter.

One characteristic does not vary — they are all properly pressure-treated with CCA preservative to standards of the American Wood Protection Association.

Quality Process

At our post mill, logs are debarked, cut to length, peeled, and electronically scanned for adequate sizing. The product is then banded and placed in one of our large storage yards for 6 months or longer to ensure the product is sufficiently dried so that each post will absorb the proper amount of treatment.

Round Southern Yellow Pine Posts

Madison Wood's classic, high-quality posts are ideal for line, corner, pull, brace, and gate applications with barbed, woven, and high-tensile wire fences. Our posts are perfect for livestock fencing, orchards, vineyards, and many other applications.

Lengths	Top Diameters
7'	2-3", 3-4", 4-5", 5-6", 6-7"
8'	3-4", 4-5", 5-6", 6-7", 7-8"
9'	6-7"
10'	3-4", 4-5", 5-6", 6-7"
12'	3-4", 4-5", 5-6"
20'	5-6"
25'	5-6", 6-7"

Specialty Posts

Posts milled after peeling to make your fencing project more efficient and economical.

	Specialty	Sizes
	Faced (3/4 Round)	5-6"x7', 5-6"x8', 6-7"x7', 6-7"x8'
	Half Round	6-7"x7', 6-7"x8'
	Sharpened	3-4"x7', 3-4"x8', 4-5"x7', 4-5"x8'

Fence Boards

Rough sawn 1"x6"x16' fence boards to complement your Madison Wood posts.

- Treated Pine (suitable for Ground Contact), also available in 5/4 thickness
- Poplar, treated to refusal
- Oak

Rustic Split Rail

Line, corner, and end posts for the 2-hole style and 3-hole style are milled from pine logs. 11' Rails are split from full round logs providing a rustic appearance.
